Hi there! I'm Manasa 👋

🎓 Engineering Student

I am a **B.Tech student** currently exploring the vast world of **Computer Science Engineering**. As a fresher, belonging to batch **2025**, currently building my foundation in Computer Science and looking for ways to bridge the gap between software and advanced science.

🛠️ The Journey So Far

- **Languages:** I have a solid grasp of **Python** and enjoy using it for problem-solving and logic building.
- **Projects:** Currently experimenting with predictive modeling and data features.

🚀 Future Horizons (What I'm Learning Next)

I have a deep curiosity for high-level technology and the laws of the universe. I am actively moving toward:

- **Artificial Intelligence & Machine Learning:** Diving into the world of intelligent systems and data patterns.
- **Quantum Mechanics:** Exploring the intersection of quantum physics and future computing paradigms.

🤖 My Tech Interests

- **Artificial Intelligence & Machine Learning:** Fascinated by predictive modeling and data patterns.
- **Problem Solving:** Currently honing my skills in algorithms and engineering fundamentals.

📈 Current Stats & Goals

- 🔭 **Current Goal:** Mastering data structures and algorithms in Python.
- 📫 **How to reach me:** https://www.linkedin.com/in/manasa-rajesh-b78ba83ba/

💃 Beyond the Screen

When I'm not coding or studying, you can find me on the dance floor! I believe that the discipline of dance helps me stay focused and creative in my engineering work, keeps my creativity and teamwork skills sharp.

About
I am a B.Tech student and AI/ML enthusiast dedicated to building intelligent systems that bridge the gap between data and decision-making. My recent work has centered on predictive modeling, where I've explored the nuances of feature engineering and handling class imbalances to improve model reliability.
